Learn how to capture and reuse rain water in your home garden with a rain barrel. Examine the innovative water management features of the new Watershed Center before constructing your own rain barrel with guidance. Bring your barrel home to begin the water savings immediately! Workshop led by Samantha Bernstein, Americorps New Jersey Watershed Ambassador.

The Sourland Stewards Project is partially funded through a Watershed Institute Grant.

Recycle the Rain is a partnership between the Sourland Conservancy's Sourland Stewards program and the Stony Brook-Millstone Watershed Association
